

**Comprehensive
range of stainless
steel solutions**

**Swiss
Steel**
International

Swiss Steel is a leading global producer of special long steel with operations around the world. The independent Group has an integrated business model built around the Divisions Production and Sales & Services which allows Swiss Steel to leverage strategic and operational synergies in the interest of its customers.

Production – specialized steelmaking, forging and rolling plants in Europe and North America; drawing mills, bright steel production and heat treatment in northern and western Europe, Turkey and China (Joint Venture with Tsingshan).

Our Production Division encompasses the business units Ascometal, Deutsche Edelstahlwerke, Finkl Steel, Steeltec and Ugitech, operating a total of nine state-of-the-art steelmaking EAFs in Canada, France, Germany, Switzerland and the USA. The steel plants complement each other in terms of formats and qualities, covering the entire spectrum for special long steel. Besides the three main product groups – tool steel, engineering steel and stainless steel – the range includes special steel products. Characteristics such as close dimensional tolerance, strength and surface quality are precisely matched to our customer's brief.

Our “Green Journey”

We are embarking into a Green Steel + Green Services program. CO₂ Neutrality is our ultimate goal. We propose already on the market some green steel products and develop green services initiatives.

Swiss Steel International, the Group Sales & Services network, a reliable global partner in steel consulting, processing and supply.

We combine our sales activities within our Sales & Services Division, and guarantee the consistent and reliable supply and end-to-end customer solutions worldwide with around 70 distribution and services branches in more than 30 countries. These include technical consulting and downstream processes such as sawing, milling and hardening, heat treatment as well as supply chain management, up to just in time deliveries. We pursue the goal of offering our customers global access to our products and services – with excellent quality standards and first-class services.

Such a service approach based on our state-of-the-art product range leads to long lasting relations with our customers who value us as partner in their development. We count more than 300 stainless steel grades in our offering.

Don't hesitate to contact us for any special need you require in your next project and your innovation process.

Our range of local services includes

- Technical support / trainings
- Local supply chain services
- Just in time deliveries
- Cutting
- Drawing
- Chamfering

Our star products dedicated to the most stringent markets

Automotive

- UGIMA® and NIRO-CUT® improved machinability grades.
- EXHAUST® F1, EXHAUST® Bi Stab, ferritic welding wire for exhaust lines.
- MAGNADUR®, ACIDUR®, CORRODUR® and ELECTRODUR® 4105 range of stainless steel.
- UGIPERM®, MRE® with optimized magnetic properties.
- UGIPURE® for high-performance spring bars.
- UGIWELD® for optimized results in welding.

Aerospace

- AERODUR®, UGIPURE®, UGI® AIR for the requested cleanliness in stainless steel.

Medical

- ACIDUR® 4441, UGIPURE® 4441, for implantable medical devices.
- CORRODUR® 4021, UGI® 4197, UGI® 4542 martensitic and austenitic steels for ancillary products and surgical instruments.

Mining

- UGICHROM® hard chromium plated bars for hydraulic systems.

Electronics

- Ultra fine wires from Sprint Metal.

Architecture Building and Construction

- ACIDUR® 4362, UGIGRIP® stainless steel rebars.
- UGISHAPE® for architectural applications.

Mechanical Engineering

- UGICHROM® hard chromium plated bars for piston rod applications.
- UGIMA®, NIRO-CUT® for improved machinability.
- UGIPLEX® for a full range of duplex grades.

Oil & Gas

- **ACIDUR®** and **UGI®** range of hard and acide resistant steel (4418, 4542, 4462, 4501, 4410).
- **CORRODUR® 4006, 4021** corrosion resistant steel.
- **MAGNADUR® 501, 601** non-magnetic steel for multidirectional drilling.
- **UGISHAPE®** simple to highly complex shaped wires for filtration applications.
- **UGIALLOY®** nickel alloy welding wires.

Food industry

- **ACIDUR® 4404, ACIDUR® 4462, ACIDUR® 4521** for water management.
- **ACIDUR® 4460, ACIDUR® 4462** for fishing industry.

Marine

- **Long bars** for propeller shafts.
- **PYRODUR® 4718** for marine valves.

Our steels satisfy the highest technical requirements such as extreme resistance to corrosion, mechanical load, high strength, strain values and very high thermal resistance.

Our stainless, acid and heat-resistant steel grades

From 1 meter diameter forged bars to ultra fine wires of 13 microns, we offer more than 300 grades dedicated to the most specific applications. We are covering all the stainless steel families: austenitic, ferritic, martensitic and duplex grades including high machinability versions (UGIMA® and NIRO-CUT®), heat-resistant steel, creep-resistant steel, non-magnetic and magnetic steel.

Thanks to our state-of-the-art Research and Development centers, we can also work in collaboration with our customers to develop new products for special steel needs.
